

Robust Cradles for Zebra ET401 8" & 10"

Customized device mounting solutions for professional use.

Built for Demanding Environments

- The ET401 series from Zebra Technologies is built for demanding professional environments.
- Brodit mounting solutions support efficient, ergonomic workflows by keeping your ET401 securely mounted within easy view and reach.
- Brodit cradles create a safer, more efficient workspace while saving time and reducing operational costs.

Why It Matters

Perfect, Firm Fit

Customized for ET401 8" and 10" bare devices, and with Exoskeleton Rugged Boot with/without scanner and with/without Expansion Back.

Professional Performance

Engineered for industrial, rough and mobile business environments.

Full Accessibility

Full access to buttons, camera, ports and connected peripherals while docked.

Efficient Handling

Easy one-hand insertion and removal.

Durable Construction

Built to withstand frequent wear and tear in professional every day use. Constructed from high-grade metal, ABS and Acetal plastic.

Quality Manufacturing

Designed and manufactured in Sweden.

Adaptable Cradles for Every Job, Every Workflow

- Brodit provides a full selection of Module Upgrade Cradles for Zebra ET401 8" and 10" devices, offering ready-made options and flexible add-ons to fit any need.
- Charging options ensure a secure and reliable power connection, minimizing downtime and keeping the device ready for use at all times.
- Seamless data connectivity keeps your workflow fast and uninterrupted.
- Locking options provide extra stability and easy access, ensuring the device stays put without being taken.
- Cradles can be switched or upgraded easily.
- Quick installation on any Brodit Mounting Platform.
